| Key Features   | Negative ion, 3-color LED digital display, foldable, self-cleaning, magnetic levitation, compact design, detachable filter, cool air function, intelligent temperature control, overheat protection |             |                           |                           |                                    |                           |                           |

### Certifications & Compliance

| Certification | Standard                            | Status    |
|---------------|-------------------------------------|-----------|
| CE            | European Conformity                 | Certified |
| RoHS          | Restriction of Hazardous Substances | Compliant |
| UL            | Safety Standards (US/Canada)        | Certified |
| FCC           | Federal Communications Commission   | Certified |
| PSE           | Japanese Electrical Safety          | Certified |

### OEM/ODM Customization

- Custom branding and private labeling
- Custom colors and finishes
- Custom packaging design
- Voltage customization for different markets (110V/220V)
- Custom plug types (EU/US/UK/AU)
- Minimum Order Quantity (MOQ): 1,000 units per model
